

NAVISP Element 3

Support to Member States national priorities in PNT

Rafael L. Rodriguez

*NAVISP INDUSTRY DAYS
ESTEC The Netherlands
17 January 2019*

- Fully funded activities of national relevance
- Flexible to support national priorities
- Use of ESA technical facilities and support maybe envisaged
- Proposals channeled through permanent Open Call on EMITS AO9427
- Two step approach with support of National Delegation

Status of Implementation

NAVISP Element 3 is being implemented at a very fast pace.

After 6 months from the issue of the Open Call:

- 6 activities in the pipeline
- 2 committed
- 42% of the available funds engaged
- nature of the activities:
 - studies to assess weaknesses in GNSS performance in critical areas,
 - test campaigns of local PNT infrastructures in critical maritime areas,
 - development of PNT test areas for unmanned transportation means (UAV, vessels).
